

FITTING BRUSHES

MASTER® HEAVY DUTY FITTING BRUSHES are the highest quality brushes available for cleaning copper fittings. This heavy duty unit is made of heavy gauge galvanized stem wire and oil tempered, high carbon level fill wire with double stem (4 wire) double spiral construction. The 4 wire stem is firmly secured in the hand-contoured handle.

MASTERS® ECONOMY FITTING BRUSHES are an economical alternative to the Heavy Duty offering. They feature a single stem (2 wire) spiral construction.
